

Memorial Menu 2026

When we lose a loved one, there are many decisions to make in a short amount of time, often while navigating deep emotional distress. Let CK Catering support your family during this time with patience, care, and professional service.

To select and finalize the best menu, we can meet in person or speak by phone—whichever is most convenient for you. Most menus are customized to meet your family's needs and preferences.

Food following funerals and memorial services can range from light lunches, such as finger foods for a standing reception, to a more substantial meal. A buffet attendant is available, if desired.

Whatever you choose, please know that our family is here to care for yours during this difficult time.
